Updates

Date: 11/3/2016 **Status:** Reviewed - Follow-up Required

Author: O'Gorman, Brian

Updated Volume:

Notes:

According to the report, petroleum-contaminated soil was encountered during a line dig. More follow-up needed.

Date: 11/4/2016 **Status:** Correspondence

Author: O'Gorman, Brian

Updated Volume:

Notes:

Received a phone call from the company contact following up on the cleanup of the release. Company contact discussed the cleanup procedure and documenting of the remediation. Confirmation samples were collected, and field screening was implemented during the cleanup. Results of the cleanup will be forwarded to me for further analysis and discussion. Further follow-up needed.

Date: 11/17/2016 **Status:** Correspondence

Author: O'Gorman, Brian

Updated Volume:

Notes:

Received an email from the environmental analyst of Enbridge with a technical memo outlining the work completed, findings, and conclusions from the release and remediation. Review of the memo shows some petroleum contamination remaining within the release area. Memo and email added to incident folder. Further follow-up needed.
